### BULGARIANS WHIPPED, IN PEACE PLEA

**Bulgars Seek Peace Parley—Allies Continue Their Operations**

By Associated Press Leased Wire  
London, Sept. 27.—Premier Malinoff, of Bulgaria, has made an offer of an armistice to the allies, according to a Berlin message transmitted by the Exchange Telegraph correspondent at Copenhagen. The message states that the Premier's offer was made without the support of the other members of the cabinet or of King Ferdinand.

**Drive Goes Ahead**  
By Associated Press Leased Wire  
Paris, Sept. 27.—The French commander in chief of the Macedonia offensive officially reports today that Bulgaria has asked for a meeting to arrange the conditions of an armistice and eventual peace.

The French commander replied refusing to suspend operations but saying that he would receive duly qualified delegates of the Bulgarian government.

**LONDON GETS NOTICE.**  
By Associated Press Leased Wire  
London, Sept. 27.—The British government today received from official authoritative sources an application from Bulgaria for an armistice. The Berlin dispatches say that the Bulgarian premier's act is a single handed move without the consent of King Ferdinand. German newspapers demand that Malinoff be dismissed immediately and court-martialed for high treason. It is believed that the premier's act was the result of Germany's refusal to send sufficient reinforcements to Bulgaria. The situation in Bulgaria is causing extreme excitement in Germany.

**CAPTURE STRUMNITSA.**  
By Associated Press Leased Wire  
London, Sept. 27.—British forces in Macedonia have captured the Bulgarian city of Strumnitsa.

**IMPORTANT VICTORY.**  
By Associated Press Leased Wire  
Washington, Sept. 27.—Military experts here say that the capture by allied forces of the Bulgarian city of Strumnitsa on the Bulgarian front breaks the strongest link in the Bulgarian defense and leaves no serious obstacle to the allied march in that country.

**AMERICANS MAKE PROGRESS.**  
By Associated Press Leased Wire  
With the American Army on the Verdun front, Sept. 27.—(10 A. M.)—The American offensive continued last night on the front of the offensive launched yesterday. The American patrols are pushing forward and are in contact with the enemy. Machine gun resistance at one point during last night was quickly overcome with tanks and artillery.

### SOLDIER'S WIFE PLEADED FOR BY FATHER FOLEY

**Charges Unfair Treatment At Hands of the Dixon Water Company**

### FAVOR OF PROHIBITION

**Wants Dry Nation For Soldiers When They Return From War**

The following communication was received today from Father Michael Foley, of St. Patrick's Catholic church:

#### THE SOLDIER'S WIFE.

Section 664 of the Ordinances of the City of Dixon reads: "Where the consumer shall neglect or refuse to pay his bill for water furnished, within the time herein fixed, and said Company shall inform such consumer of the amount thereof, it may, on ten days' notice in writing, turn off the water from such premises." Page 174, Ordinances of the City of Dixon.

In the light of this ordinance, I beg to state a case of shutting off the water from the little home of a soldier's wife in Dixon recently.

A young man was called to the service of his country, to protect the homes and the lives of its people. He was a laboring man and got a laboring man's wages, \$30.00 a month; he was paying for his little home on the monthly installment plan; he had a wife and one child, a little girl five years old, whose tonsils were bad, and had to be removed; this was done at a total cost to him, including hospital bill, of \$27.50. Just then he was called to Camp Grant to prepare for action in the field of battle. He left his wife and sick child all the money he had, \$2.50.

### DR. HOUSE TALKS TO HIGH SCHOOL TODAY

**"Psychology of Success" the Theme of Lecturer To Students**

### PRACTICAL ADVICE

Dr. E. L. House spoke to the students of the High School yesterday on "The Psychology of Success." It was a most practical address and was received with enthusiasm by the students. He said this was the age that we must develop brains as never before. To be a success one must recognize what has been given to them in the way of raw material. A builder looks over his material and then plans how well and big he can build. God has given you the best material in your faculties. Now organize them. Iron ore has to be organized to get its best results, so with anything in the world. Going to school, college, commercial college is organizing. Utilize to the full what is yours. When you utilize your growth, specialize; that is, be your natural self; ape no one. While you may roam everywhere for your research, when you do, put your stamp of individuality on your work. Do not be afraid of failure. No one achieves who does not fail somewhat now and then. You are not in a hundred yard dash, but a life race, and the big man learns from his failures. Spiritualize your work; put principle into it. Genius may bear you aloft for awhile, but sustained achievement comes to the man who puts character into all that he does. You are here for a great time and work. God has a dream concerning you, and you are here to make that dream come true.

#### GERMANY PROTESTS.

By Associated Press Leased Wire  
London, Sept. 27.—Germany intends to send a solemn protest to Bulgaria against Premier Malinoff's request for an armistice, according to a Berlin report received at Amsterdam and forwarded by the Exchange Telegraph Company.

#### WAR MINISTER OUT?

By Associated Press Leased Wire  
London, Sept. 27.—Colonel Von Stein, the Prussian war minister, is reported to have resigned, according to advices to the Exchange Telegraph company at Copenhagen.

### OVER THE TOP TOMORROW

The Yanks are storming German strongholds today. Our own boys are baring their breasts to German steel and walking coolly forward in the face of storms of bursting shrapnel and shrieking, tearing shells and a hail of machine-gun and rifle bullets. They are falling, many of them, no doubt—some with faces quiet in death, and some convulsed in fearful agony. Many of them are buried in France. Many more will come home with arms, legs, or faces shot away. Blind and deaf and nervous wrecks.

Why are they making this sacrifice? They are making it that America may be safe in future years from invasion by the Hun—that American cities and fields and homes may be saved from what happened to Belgium. They are making the heroic sacrifice for those who are at home, for the children of the nation and their children's children.

If our fighting men are not to make their sacrifice in vain, the people of this nation must back them up with the money needed to supply the munitions of war. Men and money are needed. The war department is supplying the men and the people must supply the money. An ample expenditure of money means a minimum of casualties and a speedier achievement of victory.

People of Dixon and Lee county, go to your polling places tomorrow and subscribe to your full quota of the Fourth Liberty Loan. Take ten per cent of the amount you intend to subscribe with you, as your initial payment.

This is the biggest loan the government has ever asked for. It means that the people must make a greater effort than they ever did before. Strain your pocketbook to its limit and pledge every cent you can manage to save between now and the last of January. The sacrifice you will make will be small enough compared to that of our boys in France—and you will be investing your money in the safest security in the world, at good interest.

Help Lee county go "Over the Top" tomorrow.

### COMPTON MEETING WAS BIGGEST HELD IN COUNTY IN WEEK

**Liberty Loan Gathering There Last Night Was Great Success**

**HAD SERVICE FLAG Banner Was Dedicated—Fine Addresses and Plenty of Music**

Several thousand people attended the Fourth Liberty Loan meeting at Compton last night. Every available seat and chair in the Opera House was filled and over 150 persons were unable to get into the house. There was splendid music and plenty of patriotic speaking. The men in charge of the affair made an endeavor to make the Compton meeting the biggest in Lee county during the campaign, and they were successful; of course, it is understood that they could not surpass the Dixon meeting, but outside of Dixon it certainly was the largest meeting in the county. The speakers were Sergeant Herbert Chapman of the Canadian Expeditionary Forces, Attorney Harry C. Warner and John Byers of Dixon.

#### AN INVESTMENT

When you are asked to subscribe: A Liberty Bond is an investment, not a donation. Don't forget that when you put down your name or pay your money.

It is the best investment that you can make at this time. When you buy a bond you do not spend your money; you hoard it.

No one, with the world at war, is keen to spend money in mere pleasure. Lend yours to the government. It will use it to win the war, and return it to you in a happier time—paying you interest meanwhile.

### FEDERAL DIRECTOR IS ANGRY OVER MANY LIES

**Wants Information Concerning Those Who Pass False Reports**

#### ABOUT LOAN WORKERS

Herman Gifford, Federal Reserve Director of Sales of Liberty Loan bonds for Illinois, writes Chairman A. P. Armstrong that it has come to his attention that in some of the counties, rumors have been circulated that county chairmen and other members of the county organization receive or have received some compensation, either in the form of salary or commission, for their work in selling Liberty bonds. He wishes to state most emphatically and positively that no member of any county Liberty Loan organization has received one cent for his services in selling Liberty bonds, either in the way of salary or commission.

It is outrageous that such rumors should be circulated about the men and women of the Liberty Loan organization who have given so fully, freely and wholeheartedly of their time and effort to this important branch of the government service. He further asks Mr. Armstrong to send him the names of any parties starting or circulating such rumors, and he will be glad to see that they are referred to the proper authority for appropriate action.

Over 100 persons attended the Liberty Loan meeting at Walton last evening. Charles Welty presided. The speakers were Father Conley, Attorney Henry S. Dixon and Albert Jorst, of the Borden company.

### EXPLAIN PLANS OF PAYMENTS ON LIBERTY BONDS

**Ten Per Cent of Amount Must Accompany Subscription to Loan**

### BANKS HAVE GOOD PLAN

**Arrange So Some Subscribers Can Have Longer Time To Pay Up**

When you go to the polls tomorrow to sign up for the amount of money you will lend the government, as your portion of the big six billion dollar 4th Liberty Loan, don't forget that you are to pay 10% of the amount of your subscription by cash or check, and the balance may be paid to any bank you may name on the government installment plan:

10% cash with subscription.  
20% cash on November 21, 1918.  
20% cash on December 19, 1918.  
20% cash January 16, 1919.  
30% cash January 20, 1919.

By this plan you pay interest at 4 1/4% on the deferred payments. This interest is offset by accruing interest on bonds which bear interest at 4 1/4% from October 24, 1918.

In addition to the government payment plan, for bonds in denominations of \$50.00 and \$100.00, the subscriber has the option of making payment by either the government installment plan as explained above, or by the semi-monthly payment plan through any bank, as follows:

	\$100 Bond	\$50 Bond
Pay with application . . . \$10.	\$5.	
Pay November 1, 1918 . . . 8.	4.	
Pay November 15, 1918 . . . 8.	4.	
Pay December 1, 1918 . . . 8.	4.	
Pay December 15, 1918 . . . 8.	4.	
Pay January 1, 1919 . . . 8.	4.	
Pay January 15, 1919 . . . 8.	4.	
Pay February 1, 1919 . . . 8.	4.	
Pay February 15, 1919 . . . 8.	4.	
Pay March 1, 1919 . . . 8.	4.	
Pay March 15, 1919 . . . 8.	4.	
Pay April 1, 1919 . . . 10.	5.	

All payments are made promptly according to above schedule — the purchaser will receive 75c, being 3% interest on above payments to April

### SOUTH DIXON YOUTH DIED AT CAMP GRANT

**Pvt. Ralph O. Will Passed Away at Base Hospital This Morning**

Another Lee county boy has given his life for his country. Private Ralph O. Will, son of former Supervisor Charles I. Will of South Dixon, passing away at the base hospital at Camp Grant at 10 o'clock this morning. Death resulted from pneumonia, which he contracted a few days ago. The young man's death came as a decided shock to his relatives and many friends. He was one of the contingent of limited service men who left Dixon for the camp on Sept. 4 and had just gotten established in the camp when he was taken ill. The remains will be brought to Dixon for burial, probably on Monday, and it is likely the young man will be given a military funeral. The young man is survived by his father and two sisters, Mrs. O. D. George of this city and Mrs. A. W. Hartman of South Dixon.

#### "CAN'T AFFORD IT."

You can't afford to give a thousand dollars, but you could if your child fell ill.  
You can't afford a new house, but you could if it were burned.  
You can't afford a new coat, but you could if it were worn out.  
You can't afford a Liberty Bond, but you would lose your child and your wife and your home and your business and your coat if the Kaiser won this war, which is precisely what would happen if every one refused to make a little sacrifice. And the Kaiser wouldn't give it back with four and a quarter per cent interest, either.

Whom are you for?

## TWO BIG OFFENSIVES OPEN ON WEST FRONT --12,000 PRISONERS

### BULLETIN

By Associated Press Leased Wire

Paris, Sept. 27.—Successful development of the Franco-American offensive, launched yesterday in the Champagne front, is reported today by the war office.

### WAR SUMMARY.

By Associated Press Leased Wire

Under allied smashes on two wide fronts between Arras and Verdun, the German defense system base at the fortress of Laon is being shaken severely today.

### Hurl British Into Battle.

Marshal Foch, while continuing the successful Franco-American thrust from east of Rheims to Verdun, has hurled the British against the German lines north of the Cambrai front and south of the Sensee river.

### Bulgarians Seek An Armistice.

The allied successes in Macedonia have resulted in an offer of an armistice being made by the Bulgarian premier to the allied generalissimo in Macedonia.

From the new line reached Thursday night the American forces between the Argonne and the Meuse continued to press northward through the hilly, wooded country northwest of Verdun. The Americans are well beyond the original German lines and are holding important observation points along this front. A light rain fell on the American sector today and the weather was unfavorable for observation.

West of the Argonne to the Surppe the French on Thursday advanced more than 3 1/2 miles and have passed beyond formidable German defensive points, including the famous Navaran farm. On Thursday the Americans, on a front of over 20 miles, captured 12 towns and more than 5,000 prisoners.

### 12,000 Prisoners Yesterday.

General Petain's men took more than 7,000 prisoners, who with the 5,000 taken by the Americans, bring the allied total for the first day's operations to 12,000.

In the Argonne itself the allies apparently are making little effort to move northward, the allied command seemingly believing that the way will be cleared automatically as the French and Americans progress on either side. Already the Germans facing this front are outflanked on the east.

### The New British Offensive.

The new British attack launched this morning is north of the scene of operations of the last fortnight looking to the encirclement of St. Quentin, and threatening the German defenses north and west of Cambrai.

South of the Sensee river the British are well within the Hindenburg line and on ground untouched previously by heavy fighting.

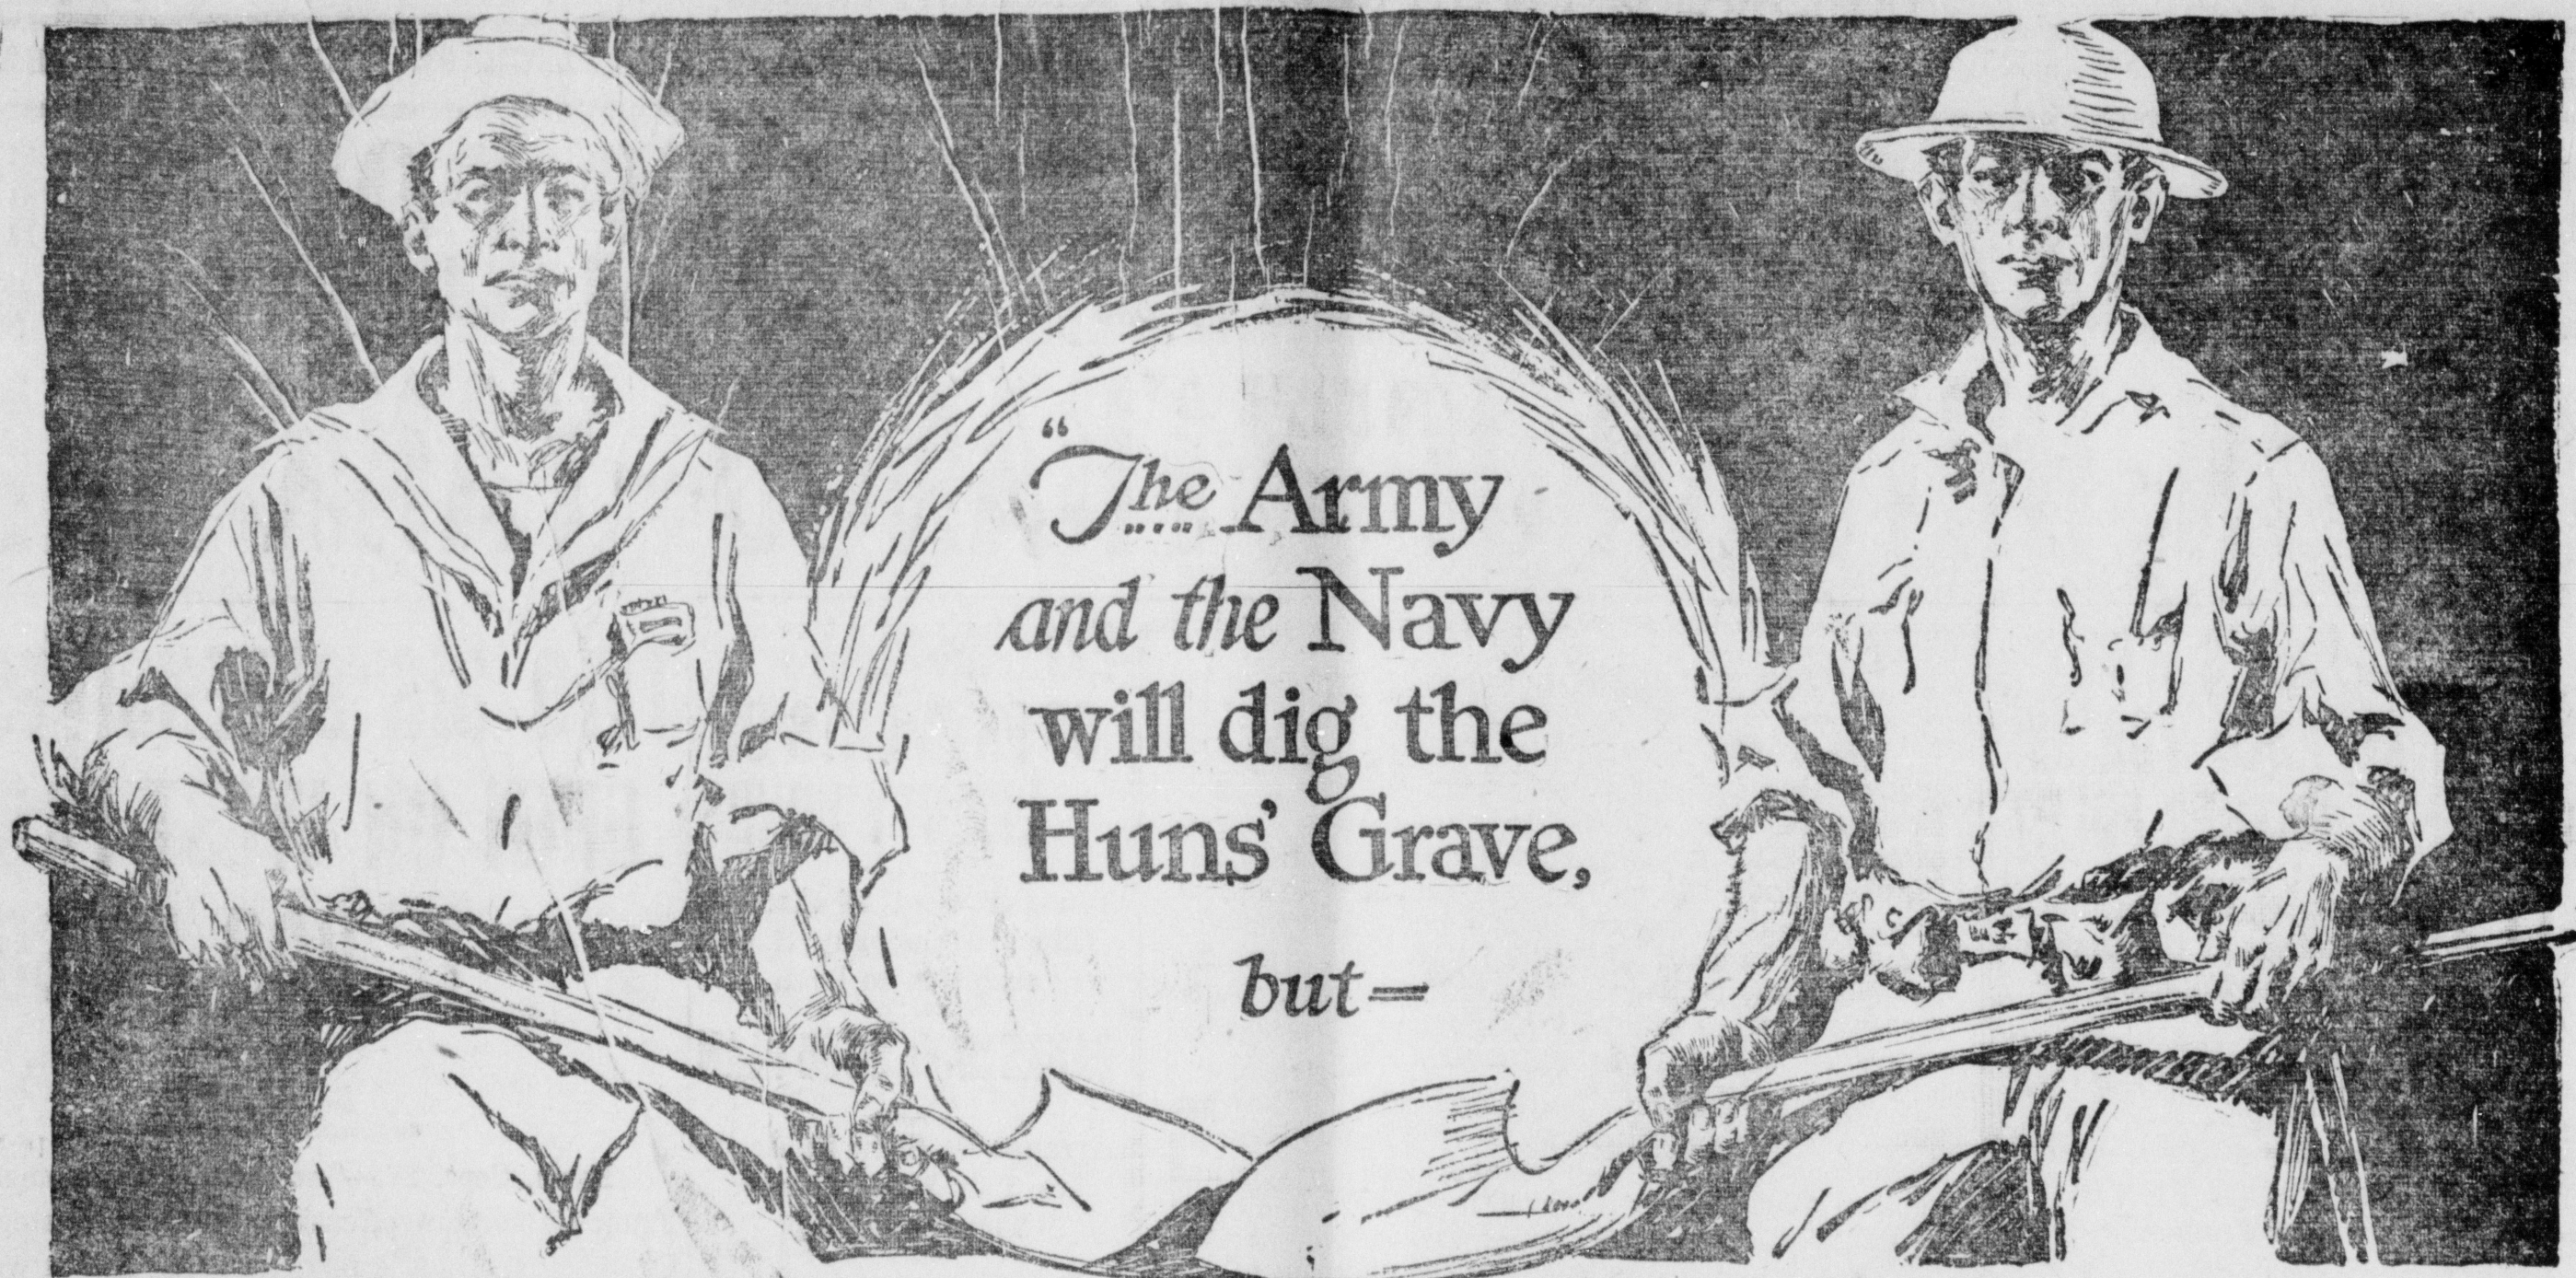

West of Cambrai, just west of the German line, the new operations are probably planned to outflank the Hindenburg positions from Cambrai to St. Quentin. The Franco-American thrust further south is aimed at the communications behind this front.

### 55 MILE ADVANCE IN MACEDONIA.

Serbian troops at the apex of the advancing allied salient in Macedonia have advanced more than 55 miles from their original positions. The important base of Ishtid has been occupied and the Serbs are fighting for Velez. Northeast of Ishtid Serbian cavalry is pressing rapidly toward the Bulgarian border. Northeast of the Vardar and north of Doiran the allies are crossing rapidly the hitherto supposedly impassible mountain heights. The Serbs have gotten well over the Grapades range and the French and Greeks are on the heights of the Belachitza range. British troops are marching in Strumnitsa, the Bulgarian base in this region.

Progress is also being made west of the Vardar and near Monastir, while the enemy troops on the wings, especially in Albania, are rapidly getting into a dangerous position.

## We Must Furnish the Spade"—Billy Sunday

By REV. WILLIAM A. SUNDAY

Uncle Sam's Liberty war chest needs filling again!

We have the cash to fill it as many times as he lifts the lid.

There are only two horns to this dilemma—you are either a patriot or a traitor.

The men on the firing line and on the battle-ships have turned from business, home, mother, wife, children, and they stand ready to give their lives and shield with their bodies us who remain at home.

We are unworthy to be thus protected, if we do not do our utmost to sustain them.

We must be one in our determination to win this war. We are traitors to the cause for which they are giving their lives, if we do things here that make their efforts harder.

Life is not worth living unless there is something to live for. *Life would not be worth living if that bunch of Heinies should win.*

That is why they cannot win. That is why we cannot lose.

What a mountain of crime God has on his books against that horde of Hellish Huns. What grave is deep enough for this thousand-armed, thousand-footed,

thousand-headed, thousand-horned, thousand-fanged pirate of the air, assassin of the seas, despoiler of the earth and ambassador of Hell!

The army and navy will dig the grave, but we must furnish the spade.

Our boys will soon hang crape on the door of the Potsdam Palace, and the bands will play Yankee-Doodle and Dixie along the Rhine.

Uncle Sam is the cactus in the Kaiser's pillow.

Our Boys have gone over to clean up on that fool bunch of Huns and it is up to us to supply them with whatever they need to finish the job. It takes money to keep the riveters riveting—the sawyers sawing—the machine guns spitting bullets and the grub wagon always on hand with the eats. There is nothing too good for our brave defenders.

Our vocabulary contains no words adequate to express our approval of the achievements of our government since we threw our hat in the ring. We are rich on top of the ground; we are rich under the ground and our rivers creep like silver serpents to the seas, bearing our products.

The children of England, France, Italy and Belgium are laughing once more because they are being fed from Uncle Sam's bakeshop. One carload of meat every two minutes, one hog out of every four, nine million pounds of meat a day—all going over to feed our boys. We are in this scrap to the last dollar, the last grain of wheat, the last day.

We will never stop until Germany dips her dirty blood-stained rag to the Stars and Stripes. It's a whale of a job we've tackled, but we can and must put it over.

*But you must help.*

Don't whine. Don't knock. You can't saw wood with a hammer. Don't turn the hose on the fire; add fuel.

## BRIAN ADMITS LUNCHING WITH MOLLE, ALTHOUGH RUTH IS HOME

CHAPTER LIII.

"When did you see Miss King last?" Ruth asked, trying not to let too much anxiety appear in her voice.

"Why—when—" Brian stammered, then, as always when he was embarrassed, he commenced to bluster. "Who told you I had seen her at all? People are in great business! Why can't they let a fellow alone?"

"No one told me. You told it yourself."

"Me—I—what do you mean?" In spite of her jealousy, Ruth's sense of humor made her laugh. He was so genuinely fussed.

"Why tonight when Mrs. Curtis elaborated upon my kindness in letting Miss King enjoy your society to such an extent, she also said that Mollie King had told her that I knew you spent the evenings I was away, with her. Now, as I had not told Mrs. Curtis anything about it, very evidently Miss King had, and how could she know I knew and, Ruth had been about to add a sarcastic 'approved,' but she said 'didn't object.' Instead, 'unless she had been told?'"

"She and Mollie are thick as two peas in a pod," Brian gumbled.

"You haven't answered me, Brian. When did you see her?"

"Oh, a day or two ago?"  
"At luncheon?"

"Yes. She wanted my advice—as a lawyer—and telephoned me. It was about luncheon time, so I took her to lunch and we talked then. We both had to eat, and it saved her a trip to my office."

"My, what an elaborate explanation!" Ruth said ironically, then at once plunged into another subject. Now she was glad she had not told Brian about her Delmonico luncheon.

"Had she, he would have blamed her for his not wanting to lunch alone, she thought, as he always blamed her for not wanting to dine alone when she was out of town."

Brian, evidently relieved, was willing to follow her lead, and was pleasantly chatty both then and the following morning. He had, to tell the truth, been a little uneasy over Ruth's reception of his having lunch with Mollie. He had not relished her tone when she spoke of his "elaborate explanation." Was she going to be nasty about Mollie? He hoped not! Mollie was such a good little pal. A fellow was so comfortable with her. Of course if Ruth objected, he would have to keep away from her when Ruth was in town. When she was away—that was another matter. He had told

"You are not looking up to the mark," he said to her. "Take it easy, today. Really, if you like, you may go home at noon. I shall be too busy to do anything about that western matter, and nothing else is at all pressing."

At first Ruth started to say she didn't care to go home. Then she rushed to her desire to spend the afternoon in her own apartment. She would let Crawford go, and would meet Brian somewhere for dinner. She longed to be alone. So she thanked Mr. Mandel and said if nothing came up between then and the noon hour to cause him to change his mind, she would be glad to go home.

"I have a number of little things yet to do to my apartment. I shall be glad of the chance," she said, then added rather shyly—she had not yet become accustomed to being in the position of employee—"Thank you very much, Mr. Mandel."

"Don't thank me, I'd"—he flushed and caught himself. He had almost said more than he knew to be wise at this time. But he wanted her to owe her happiness to him. "I'd not have allowed you to show up at all today had I known you felt badly," he finished in a business-like manner.

"How good he is to me," Ruth said to herself as she went about her day's work. "I don't believe many employers are like him."

She was thinking, as it happened, just exactly what Arthur Mandel intended her to think.

## IT WORKED WELL.

The first season of national daylight-saving is nearly over—it lasts till October 27. Public officials, business and professional people and laboring men in many parts of the country declare it a complete success. It is estimated that several million dollars were saved in the reduced use of artificial lights and power.

There is one advantage of the system which is hard to measure in any terms, although it is of real importance. That is the health and enjoyment that has come to individuals through their extra hour of sunlight after the day's work was done. Millions of people made use of that time in seeking healthful relaxation and recreation in the sunshine and open air, which would have been impossible without the daylight saving system. War gardeners could stay in their gardens longer than usual, and the result was excellent for both.

The actual turning ahead of clocks and watches was a much simpler achievement than many people had feared. Nobody will mind turning them back again October 27, even though the change will bring darkness each evening and necessity of artificial lighting long before the supper hour. But most folks will look forward to the change the other way next spring.

Buy Liberty Bonds to the limit. You can buy \$30,000 worth of the fourth issue and escape tax free so far as the income from them is concerned. That limit is high enough, surely, for most of us. Especially when you can—if you have been able to reach them—have \$45,000 worth of the first, second and third issues stowed away somewhere in safe keeping.

Pacifist preachers—there are still a lot of them—do not reflect that it is unchristian to refuse to fight in the face of evil. To allow to live a great evil like the German will to destroy civilization would be to surrender to the power of the devil. To fail to be prepared to fight this evil as long as it remains unvanquished is to invite destruction.

It is about the limit of nerve for any German to suggest a plan for a league of nations to guarantee the world against further atrocities and frightfulnesses such as have been made only in Germany. The prisoner at the bar suggesting to the judge what his punishment shall be.

Thomas A. Edison thinks it would be a good thing for every one who writes a business letter between now and the ending of the Fourth Liberty Loan drive to close with the words, "Yours for the Fourth Liberty Loan."

that are WELL furnished aren't necessarily those furnished at a large outlay of money; in fact, often a very modest sum, expended judiciously through the excellent use of GOOD TASTE, and invested in a few pieces, transforms a House of commonplace interior into a delightfully inviting home.

As time passes it will be more difficult to find WHAT you wish; it will cost MORE also as time passes, to buy what may THEN be found.

NOW, at this time, we offer larger and finer displays of splendid Furniture and Rugs, Draperies and Floor Coverings than customary even under NORMAL conditions; ALL DUE to the fact that we HAVE bought heavily of all such things while prices WERE much lower than PRESENT wholesale costs.

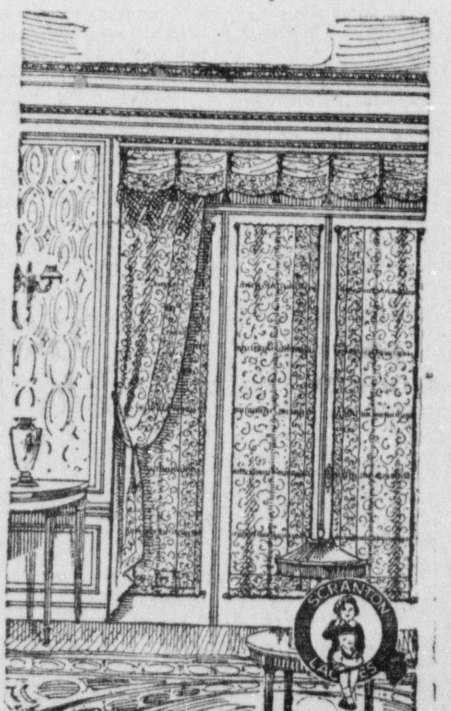

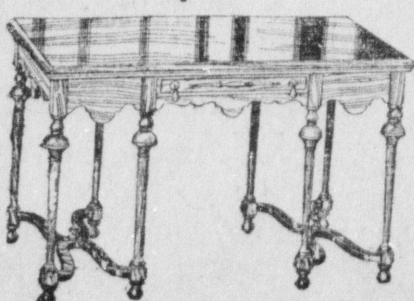

It is a great advantage for US to be able to offer you good and reliable furnishings at much less than prevailing prices; and for YOU, it certainly is a great advantage to find it possible to NOW choose from large stocks, JUST WHAT you wish and to buy TODAY for much less than its REAL worth.

## FATHER FOLEY IN PLEA FOR SOLDIERS

(Continued from page one.)

Now, let me say here that our government has made and is making the best possible provision for our soldiers' wives and mothers and children; and as the government of the United States is the most democratic and the best government in the world, a "government of the people, for the people and by the people," it intends no hardship; and, in fact, works no hardship, but treats all alike in demanding that they save the country, as they all enjoy equal rights and privileges and the protection of the government. And in cases like the one I have cited, the local organizations of relief take care of wives, mothers and children until the soldiers' pay and the government's allowance are remitted. I say organization of relief, and not of charity, because they are not objects of charity, whose husband, son or father is gone to give his service, his blood or his life for his country, but of support, of obligation, of solicitude and regard. And this, I am sure, is the intention of the government and the spirit of the country.

But, contrary to the ordinance, and to the intention of the government, and to the spirit of the country, and indeed to the dictates of humanity, this soldiers' wife, to whom he had left all the money he had, two dollars and a half, to provide for herself and sick child, had her water turned off without notice, and while she was away from her little home, either to see the Red Cross organization for help or to get fresh air for the sick child.

The water bill was four dollars and sixty-eight cents. And for that amount the water was turned off from the little home of a soldier's wife and sick child. And without notice, written or verbal.

Mr. Editor, kind reader, you do not expect language from me to qualify this. But you want to know what I want to know: How could it be done? As far as I know it is a result of work done in the dark and on which light is badly needed. The Water Company tells us it has power from the Utilities Commission to do things that we know and believe in our hearts to be wrong. We do not know what these powers are unless we take the Water Company's word. And this we surely should hesitate to do.

The Water Company comes to your house, tells you that you can have the free use for one year of your own meter, the meter you have bought and paid for and had installed at your own expense, and that from that on you will pay from \$3.00 to \$30.00 or more a year for it, according to its size. Or it may put in one of its own worth at wholesale for about \$7.00, and charge you \$3.00 a year for the use of it. (Both confiscation and robbery.) In three years you would have paid, more than paid, the price of it with the cost of installing and interest on the cost; and then the Company would draw a grant of 47 1/2 per cent a year on the price of the meter, which is already paid, and amounting to more than \$5.00.00 a year from the people of Dixon on this deal accomplished in the dark, without the knowledge of anyone in Dixon, except perhaps the City Council. And, if the Council knew of it, it took no action in the matter. And it certainly did not act the part of the watchman in the tower and give the alarm. It was all, whatever it was, done in the dark. The people of Dixon had, as far as we know, no hand in it, no knowledge of it. All we know is that the Water Company tells us it has, over our head, acquired entirely in the dark, powers that either practically destroy or entirely abolish the franchise we gave it—the franchise which is the people's contract with the Water Company.

Has the franchise been abolished? If not entirely, how much of it has been abolished? If any of it, or all of it has been abolished, why have we not been made aware of it? How do we know where the powers of the water Company are to end? Can the Water Company shut off the water from a poor helpless, penniless woman, a soldier's wife with a sick child; and without a line or a word of notice? Has the Utilities Commission bestowed such power on the Water Company? These are things we ought to know. If the Illinois Utilities Commission has bestowed those powers upon the Water Company, and if the State of Illinois has no jurisdiction in the case, is it not time for the people of Illinois to appeal to the Federal Government for protection from despotism as vicious and odious as Kaiserism?

And now, that I am speaking of the Federal Government, let me ask the Water Company if it is going to confiscate the government meter in the federal building and hold Uncle Sam up in broad daylight for an annual rental on his own meter equal to, or greater than, the cost of the water measured, on account of its size?

This confiscation of United States Government meters in Illinois, under the ruling of the State Utilities Commission, if it so ruled, would, I fancy, run into hundreds of thousands of dollars annually.

An important question is: Will the United States government stand for it? If the United States does not, the individual citizen should not. And now, above all times, when the people are straining every nerve to raise money so greatly needed to maintain our soldiers in the field and their wives and mothers and children at home, it is not likely that the Government will allow itself to be robbed by Water Companies at the bidding of a State Utilities Commission. We certainly need light.

Now let me state in vindication and to the honor of the soldier who left all the money he had, two dollars and fifty cents with his wife and sick child before leaving for Camp after having paid the monthly installments on his little home, and

doctor's and hospital bills for his little girl, that he had also paid his water bill, which he did on the 21st of August, \$4.68 to the first of September. And still, without a line or a word of notice, the water was shut off. But then, you know, the house is small, a cottage about 15 by 10; and it was therefore evident that its owners were poor. With some that would be palliation. It might cause less trouble than confiscating a government meter and shutting off water from a government building if the government refused to be held up for rent for its own meter.

In conclusion let me state the soldier is near and dear to me because he is a soldier; and as he is fighting for me in his sphere, the sphere of danger and hardship and sacrifice, perhaps the sacrifice of his life, I would be an ingrate and a coward, if I did not in my sphere raise my voice in his behalf, and in behalf of his wife and child and mother.

It means much to me—it means as much as my life to me, that there is a service flag with one hundred and fourteen stars, two of them in silver, at the Gospel side of the altar in St. Patrick's church, with two to be put on for two soldiers who have recently left; and that six boys are in colleges receiving government training preparatory to entering service. That is one hundred and twenty-two gone from St. Patrick's congregation at the call of their country and in its defense. Practically all these young men have grown from childhood to young manhood under my observation and to a great extent in my care. And as God gives me to see I would give my life for any of them individually if necessary. As God gives me to see I would give my life for any American soldier or sailor or aviator, if necessary.

Viewing the soldier and his mission in this light I deem it my sacred duty to speak for him and do for him whatever I can in public or in private, in season or out of season; while he is in the war and after his return. And for this reason let me go on record publicly before the people of Dixon, as I pledged myself last Sunday in the church to the congregations at both masses, that during the rest of my life, be it long or short, I will vote against the saloon, and the brewery, and the distillery, against intoxicating liquor in all its forms; and speak against it, and write against it, so that when our soldier boys return to their homes they will not be subject to the temptation of yielding to its debasing, corrupting and ruinous effects and influences.

And let me state that when I made this declaration at both masses last Sunday I am morally certain that it was approved and ratified by ninety-nine and ninety-nine one-hundredths per cent of St. Patrick's congregation.

And now let me plead again for our boys who have given up all home comfort, happiness, ease and security as well as profit and advantage, to endure discomfort, hardship and danger, even danger of death, for us, and ask that we strive and sacrifice for them by going to the extreme limit in helping our government to provide for them. Let us have them in mind tomorrow when we subscribe for the Liberty Loan.

MICHAEL FOLEY.

## EXPLAIN PAYMENTS ON LIBERTY BONDS

(Continued from page one.)

15th on the \$100.00 bond and 37c on the \$50.00 bond. It is important to note that 10% cash or check must accompany each subscription. The only exception to this rule is that in case where factory employees desire to have the 10% deducted from the first pay check, the precinct subscription committee have authority to enter the subscription, making a note on the subscription blank of name of factory and date of next pay day.

All quotas in townships are made upon a combined basis of population and wealth. Every man, therefore, who owns land in some other township or county or state is expected to make his subscription, not where his land is located, but where he maintains his residence. Every person in town with ability to buy bonds is expected to go to his or her precinct tomorrow and subscribe his or her share of this 4th Liberty loan. Persons who reside in Dixon temporarily, or who have not established their residence in Dixon township but who are here in some gainful occupation are also expected to subscribe here, in the precinct in which they live.

Arrangements will be made by each of the several factories so that all employees will have ample time to subscribe at the polling place in the precinct in which they live.

The U. S. A. is our country, our home, our love and it is the duty of each and all of us to show voluntarily, without stint, our pride in her soldier sons, our faith in the future and our determination to win the great fight of nations, by digging deep into our pockets and lending our treasure to our government quickly, anxiously.

## ALDEN TALKS OF WAR SENSE AND SCRIPTURE AT PEOPLES CHURCH

Upholds President's Declaration of Secret Peace Discussion

### CAN CHRISTIANS FIGHT

Forefathers Who Made the Nation and Preserved It Had To Fight

"President Wilson's policy declining a secret parley and denouncing secret treaties is based on the thought in which America was started as a nation. A decent respect for the opinion of mankind requires that we declare the causes," reads the Declaration of Independence. Kings have not felt bothered with such an obligation previous to this war. There is sense in publicity," remarked Charles A. Alden in his lecture at the Peoples church. In part he continued as follows:

Based on Common Sense.  
"A democracy is based on common sense, that is a sense that has become common. An autocracy is based on common obedience to the sense of one man on the throne.

"Common sense demands common knowledge, or a wide publicity, such as we in America have in our free press. It means a stand for common rights. It involves a common loyalty from which no individual or group of individuals may at their option secede. It demands a common service by which alone may any man or woman be patriotic." Mr. Alden discussed several texts which he said illustrated war scripture.

"How can a man be true to Christ by keeping the peace and to America by fighting both at the same time. But if you claim that to be a Christian means you must not fight, then you must indict the Colonial fathers who made us a nation and the Boys in Blue who preserved the nation as un-Christian. That is a thing you dare not do.

"All they that take the sword shall perish by the sword." If you read that as literal, it means an endless vendetta and there can be no permanent peace. There would always be some one coming along with a sword to kill the last preceding man who took the sword. Read it of governments, that they who choose the sword shall perish by it and you have sense. What sword shall put the sword of autocracy out of business? The sword of democracy, which is unsheathed only as a last resort by those who do not wish to fight.

"Whoever shall compel thee to go a mile, go with him twain." The Kaiser illustrates this. He compelled America to go into this war very much against our will. That was the first mile. Now we are going with the Kaiser the second mile whether he wants to go or not. The end of the second mile is Berlin.

"If I had not done among them the works that none other man did then they had not had sin but now have they no cloak for their sin." If democracy had not done among nations the work that no other form of government ever did then the Kaiser had not had sin in striving to dominate the world, but now with democracy proven by one hundred and forty years of experience as based on peace and justice, the Kaiser has no cloak for his dynastic sin and greed."

Mr. Alden will conclude this series of lectures next Wednesday evening, October 2nd, speaking then on the subject: "Made in America."

## Do It the First Day

By Wilbur D. Nesbit

You know you are going to buy Liberty Bonds.  
You wouldn't be square with yourself if you didn't.  
You couldn't take off your hat to the flag with half the sense of ownership if you didn't.  
You couldn't cheer the marching line of troops with half the thrill if you didn't.  
You couldn't watch the Jackies go by with half the pride if you didn't.  
You couldn't glimpse a battleship off the coast with half the joy if you didn't.  
You couldn't read the war news with half the eager faith if you didn't.  
You couldn't be 100% American if you didn't.

You know the Fourth Liberty Loan starts September 28th.  
You know that buying a Liberty Bond isn't making a gift.  
You know you are simply lending your money to your Government—to the best friend you and your mother and wife and sister and daughter have.  
You know what security is back of your loan—security that means good interest and that your money will be paid back to you.  
You know all of that—you know the business side as well as the patriotic side of it.

Then, buy your Liberty Bonds the very first day of the Loan. Don't wait. Do your thinking beforehand. You don't need to consider it; you don't have to be argued into it—you know you will buy Liberty Bonds. Be one of the first to get the badge of honor—the Liberty Bond button. Get yours on the first day—September 28th. You know what an example that will set.

Make September 28th your Liberty Bond day. Could you do a better thing right now?

# Sergeant Brown was hard to satisfy

Four machine-gun crews to his credit was a pretty fair record for one day's work. But why leave a perfectly good trench half filled with Germans? Brown didn't.

The hail of machine-gun bullets could not stop him. He was not thinking of them. Shrapnel was bursting all around him. He did not heed. His rifle was so hot he couldn't touch

it, so he laid it in the hollow of his arm and kept on firing; the Huns kept on yelling "Kam-erad!" and throwing down their guns. Brown forgot danger and death, he forgot that he was alone against a hundred and fifty Germans. He forgot everything but his job—Victory. And he walked proudly into camp with one hundred and fifty-nine prisoners.

We've got a big job over here, too. We must provide guns and shells and food and clothing for men with the spirit of Sergeant Brown—to send them forward to victory. Let's do our job as he did his—fearlessly, persistently joyously.

Let's lend as he fought—let's buy Liberty Bonds to our utmost

Some of the houses have 4 rooms, 6 rooms, 6 rooms, and on up to 13.

In addition to the Liberty Loan meeting, the Service Flag for the 47 boys who went from Brooklyn township into the service of their country, was dedicated. The names of the boys were read by John Archer, president of the Village Board. John H. Byers delivered the address dedicating the flag. Nineteen years ago Mr. Byers was at the head of the Compton schools, and many of the 47 boys were his pupils at that time. Brooklyn township has sent one of its fair young women into the service as a Red Cross nurse, Miss Louise Knauer, who is now on duty in France.

Sergeant Chaplain told a very interesting story of the conditions across the sea. He spent more than a year on the front. He is now at home on account of illness, but some time next month he will again report for duty with his comrades in France.

Attorney Harry C. Warner delivered a forceful speech in behalf of the Liberty bond sale tomorrow.
